

INTERNAL PROMOTION CALL

The Institute

The **Santa Creu i Sant Pau Hospital Research Institute Foundation** is a scientific foundation which mission is to improve health and quality of life of the population, through the production and dissemination of scientific knowledge, training of researchers to an international standard, and promoting health innovation and the incorporation of medical advances in clinical practice and healthcare policies. Created in 1992, the institute was attached to the Autonomous University of Barcelona (UAB) in 2003, and since 2011 it is part of the Government of Catalonia's CERCA Programme.

For the Foundation, it's a priority to ensure that the recruitment of the most suitable candidate to cover a job is carried out through an open selection process, transparent and merit-based (OTM-R). Following these guidelines will promote the mobility of staff, the exchange of knowledge and, ultimately, the increase in the quality of teaching and research. Faithful to the commitment to the human resources strategy of the European Union, our institution's personnel selection and recruitment procedures are governed by a set of basic principles that guarantee everyone equal access to a work placement. Therefore, the constitutional principles of equality, merit and capacity are followed, respecting in any case the national and international regulations in force in this area, specifically the European Charter of the Investigator and the Code of Conduct for the recruitment of Researchers (C&C). The principles of C & C are applicable for the recruitment of any staff of the institution, regardless of their professional category.

The **Santa Creu i Sant Pau Hospital Research Institute Foundation** needs to incorporate at the **Animal Experimentation Platform**:

T4B- Senior Research Technician

About the Unit / Group:

The Animal Experimentation Service is the area dedicated to the house and care of experimental animals, and to work with experimental procedures that use them. The SEA has the ISO 9001: 2015 certification and guarantees compliance with the legal and ethical laws related to the use of animals for experimentation and for other scientific purposes.

It is officially registered as a breeding center, supplier and user of experimental animals it also has the authorization to house and work with Genetically Modified Organisms. The staff of the SEA is also officially trained and accredited: Welfare and Animal Health Specialist, Advisor

on Animal Welfare, Technicians and Caregivers.

Translational research needs a responsible use of experimental animals and the reproducibility of results. The use of animals of high genetic and healthy quality and their use, maintenance and well-being in appropriate facilities are mandatory to obtain these results. The SEA offers its services to maintain the animals in the right conditions and also advices and gives specialized support to the researchers in the design and realization of the experimental procedures and techniques.
